

TECH

With the introduction of the **TECH** model, Bellota now offers a complete range of quality tile cutters: POP, PRO and TECH. **TECH** is a sturdy, precise and light-weight machine designed to cut large formats of tiles, up to 125 cm / 49.2 inches: the essential tile cutter for the most demanding professional tile installers.

One-piece design philosophy:

Designed to work as a single unitary piece to guarantee a tool that is precise, sturdy and durable. **TECH** is designed to work with precision, day after day and cut after cut.

Sturdiness:

Built with high performance materials, **TECH** has a patented assembly system and its design has been optimized piece by piece resulting in a longer-lasting machine. We use the best materials and structure designs to maximize rigidity and eliminate twisting and bending. The patented assembly design results in the highest transmission of tile-breaking force and enhanced durability.

Precision:

The solidity and rigidity of the core structure help ensure a clean and straight cut even with large tiles. A force of only 2 kg / 4.4 lbs is necessary to properly score the tile.

With Wheelie Bag.

Scoring wheel included.

ITEM	Max. cutting length mm / in.	Max. diagonal cut mm / in.	Max. Thickness mm / in.	Weight * kg / lbs	Dimensions * mm / in.	Included scoring wheel	UPC code (EAN)

Large Formats

REGISTERED DESIGN ®

Manufactured in Spain with 100% components from Europe.

CENTRAL PIVOT SWIVEL SQUARE

Combines ruler, square and stopper for precise and repetitive cuts.

GUIDING SYSTEM

Unique guiding system built with round rail bars made of chrome-plated solid steel and aluminium stands for maximum wear resistance, smooth gliding and precise scoring.

CONSTRUCTION

Patented assembly design: the reinforced base, rail holders and guiding system are designed as a single unitary piece to guarantee a tile cutter that is precise, sturdy and durable.

DOUBLE ROTATING PROTRACTORS

This patented feature allows optimal support and enhanced cutting versatility at all angles.

CENTRAL BREAKER RIB

Made of high-quality steel to resist to abrasion, guarantees an easy and clean tile break.

SEPARATOR

Heavy-duty breaking arch with up to 1,000 kg / 2,205 lbs capacity for easy and clean tile separation, even high-density porcelain.

SLIDERS

Maximum scoring smoothness, precision and durability thanks to double self-lubricating bushings.

FLOATING BASE

Spring-loaded aluminium base offers an open working surface with maximum stability and dampening.

FOLDABLE SIDE ARM EXTENSIONS

Integrated into the base to facilitate the positioning of larger tiles while offering better support and stability.

Universal scoring wheels

Bellota **Universal XL** and **Universal XL Titanium** scoring wheels are perfectly suited for the TECH tile cutters and also compatible with other manufacturers' cutters.

Universal XL

Universal XL Titanium

The **18mm (3/4 in.) AUREA** scoring wheel features an oversized design for higher blade stability and superior control. This unique feature contributes to more precision, less cutting efforts and an increased lifespan. Patent pending.

Forged steel:

Just like Bellota chisels, Bellota cutting tools' octagonal forged steel shafts guarantee maximum rigidity and sturdiness for straight and precise scoring.

Titanium:

The titanium coating increases the lifespan of the blade up to 20% in comparison with non-coated blades. Ideal for the hardest and most abrasive types of tiles.

High-quality cutting wheels:

Our high-quality scoring wheels use hardened tungsten carbide blades that last up to 25% longer than the competition. The titanium coating is ideal for the hardest and most abrasive types of tiles and increase the lifespan of the blade up to 20%.

Universal:

Bellota scoring wheels are compatible with all of our tile cutters as well as competitors' thanks to a unique adaptor.
